Professional Summary

Backend Developer with over 5 years of experience building scalable and secure web applications using Node.js, Typescript, Express.js, and NestJS. Skilled in designing RESTful APIs, database management, authentication, and backend architecture, with strong focus on performance, reliability, and clean, maintainable code.

EDUCATION

Rivers State University, Nigeria

BSc Computer Science

August 2019

Professional Experience

Backend Developer Oct 2025 – June 2026 ITSkillsCenter Lagos, Nigeria

- Developed and maintained scalable backend applications using Node.js, Typescript, Express.js and NestJS.
- Designed and implemented RESTful APIs, authentication systems, and role based access controls.
- Worked with MongoDB, PostgreSQL, Prisma, and Mongoose to design and optimize database operations.
- Implemented Backend features, error handling, validation, and performance improvements while maintaining clean, reusable code.

Backend Developer Nov 2023 – Aug 2025 Elitepath Software Port Harcourt, Nigeria

- Developed Backend features and RESTful APIs using Node.js, Express.js, and Typescript.
- Integrated MongoDB and Mongoose for data storage, querying, and application data management.
- Implemented user authentication, authorization, input validation, and API error handling.
- Collaborated with developers to troubleshoot issues, test APIs, and improve application functionality.

Full stack Developer Oct 2022– Sept 2023 Ad'mas IT Place Port Harcourt, Nigeria

- Developed web application features using React.js, Node.js, Express.js and JavaScript/TypeScript.
- Built and integrated RESTful APIs with frontend applications and implemented dynamic user interfaces.
- Worked with databases and backend services to support application functionality and data management.
- Debugged application issues and collaborated with other developers to deliver reliable and responsive web solutions.

Web Developer Intern Jan 2020 – Feb 2021 White Creativity Port Harcourt, Nigeria

- Developed and maintained responsive web applications using React, Typescript, HTML, CSS, and JavaScript.
- Built and integrated backend services and RESTful APIs using Node.js, Express.js, and NestJS.
- Implemented frontend features, API integrations, form handling, authentication, and data management across web applications.
- Troubleshoot and resolved application bugs, API errors, and integration issues while improving application functionality and performance.

PROJECTS

Movent (Event Ticketing App) <https://ioinmovent.com>

- Architected and developed a scalable event ticketing platform supporting attendees, organizers and administrators through role based access.
- Built secure authentication and authorization workflows including user registration, email verification, password reset, JWT authentication, refresh tokens, and HTTP-only cookie management.

NaijaPrice Tracker (Price Tracking App) <https://naijaprice.vercel.app>

- Developed NaijaPrice Tracker, a full stack price tracking platform designed to help users compare prices of goods across markets in Nigeria.
- Implemented scalable frontend architecture using React and Redux, improving application state management, user experience, and efficient handling of dynamic pricing data.

TECHNICAL SKILLS

- JavaScript • TypeScript • NestJS • Express.js • Node.js • React • HTML • CSS • TailwindCSS
- Gemini AI • Codex • Antigravity • GitHub Actions • Git • Docker • PostgreSQL • MySQL • MongoDB
- TypeORM • Mongoose • Prisma • RabbitMQ • Redis • JWT • API Keys • OAuth2 • Paystack

CERTIFICATIONS

- Software Development
- Intermediate Nodejs
- Beginner Nodejs
- Basic Web Development
